**Subject:** Another round of Dimock data ...

... is expected to be ready for posting in the next day or two. As in the recent past, the files will be posted to the osc.net website, with link(s) from the "About PA" page. We'll see whether this makes the Dimock activities list of links sufficiently long to use an anchor tag to move the Dimock links--but not the Dimock header--farther south on the page. Thanks for your help with this time-sensitive posting. Larry
